Compatibility Overview

The five dimensions in depth

Attraction & Romance - 69%

Attraction measures the Venus-Mars chemistry between the charts - physical pull, romance and desire. A high score means a natural spark; a low score means attraction must be consciously nurtured through shared beauty, romance and play.

Basis: her Venus (Leo) vs his Mars (Sagittarius) 100% · his Venus (Sagittarius) vs her Mars (Taurus) 8% · her Venus (Leo) vs his Venus (Sagittarius) 100%

What helps: Schedule regular, unhurried date time - keep courtship alive after commitment.

Emotional Bond - 28%

The Emotional Bond reads the Moon-to-Moon and Moon-to-Venus links - how well the two minds and hearts understand each other day to day. Strong here means easy comfort and empathy; weak here means feelings can be misread, so emotional time and honest talk matter.

Basis: her Moon (Aquarius) vs his Moon (Virgo) 8% · her Moon (Aquarius) vs his Venus (Sagittarius) 50% · his Moon (Virgo) vs her Venus (Leo) 25%

What helps: Protect a short daily check-in - a few minutes to really listen.

Stability & Commitment - 56%

Stability reflects the Jupiter, Venus and Saturn links - loyalty, commitment and staying power. High means the relationship endures pressure; low means commitment grows slowly and benefits from shared values and elders' support.

Basis: her Jupiter (Leo) vs his Venus (Sagittarius) 100% · his Jupiter (Gemini) vs her Venus (Leo) 50% · her Jupiter (Leo) vs his Jupiter (Gemini) 50% · her Saturn (Capricorn) vs his Saturn (Sagittarius) 25%

What helps: Keep small promises consistently - reliability is what builds trust.

Harmony (low friction) - 75%

Harmony is the friction reading - chiefly the Mars-Moon and Saturn-Moon axes. A high score means little day-to-day clashing; a low score flags where tempers and moods collide, which awareness and pauses defuse.

Basis: her Mars (Taurus) vs his Moon (Virgo) 100% · his Mars (Sagittarius) vs her Moon (Aquarius) 50% · her Saturn (Capricorn) vs his Moon (Virgo) 100% · his Saturn (Sagittarius) vs her Moon (Aquarius) 50%

What helps: Agree a "cool-down" signal to pause an argument before it escalates.

Children & Family - 58%

The Children axis reads Jupiter (the child karaka, giver of progeny) and its links to each other's Jupiter and Moon - the family outlook. High supports progeny and a warm home; low suggests care with timing and medical guidance.

Basis: her Jupiter (Leo) vs his Jupiter (Gemini) 50% · her Jupiter (Leo) vs his Moon (Virgo) 25% · his Jupiter (Gemini) vs her Moon (Aquarius) 100%

What helps: Lower stress and prioritise rest, nutrition and health together.

Method: each dimension averages the sign-relationship (Yuti / Trine / 3-11 / 2-12) between the two charts' key marriage planets - the BNN approach, not the 36-point Guna Milan.

Rashi Reading - by Ascendant

ASTRO DR. MANDEEP C SAINI

Anika Verma - Leo Lagna

Core nature: Authority, ego, dominance.

Sutra: "Ego drives destiny.".

Life lens: Born to lead - proud, generous, needs recognition.

Marriage watch-out: Ego clashes. Work/stress: Authority struggle, career pressure.

Rohan Mehta - Taurus Lagna

Core nature: Stability, comfort, resistance.

Sutra: "Money decides mood.".

Life lens: Stability-seeking, resistant - slow, secure, attached.

Marriage watch-out: Possessiveness. Work/stress: Office politics, legal stress - "balance breaks at work".

Anika Verma (Leo) leans toward ego clashes; Rohan Mehta (Taurus) toward possessiveness. Most friction shows where these two meet - naming them early defuses it.

Nakshatra & Yoni Compatibility

ASTRO DR. MANDEEP C SAINI

Classical Kuta (Ashtakoot) matching, read from each partner's Moon nakshatra. This is NOT Bhrigu Nandi Nadi and does not change the BNN score above.

Shatabhisha and Uttara Phalguni score 4.5 of 21 on the four nakshatra kutas - difficult.

Anika Verma - Shatabhisha, pada 1 (lord Rahu). Gana Rakshasa · Yoni Horse (female) · Nadi Adi.

Rohan Mehta - Uttara Phalguni, pada 2 (lord Sun). Gana Manushya · Yoni Cow (male) · Nadi Adi.

Tara (Dina) - 1.5 of 3

Shatabhisha Uttara Phalguni: Vadha (7) · Uttara Phalguni Shatabhisha: Kshema (4)

One direction is supportive and one is not, which is the commonest result of the four here. It points to an uneven flow rather than a fault.

Yoni - 2 of 4

Horse (female) · Cow (male)

Neither the same yoni nor a hostile pair - a workable middle, which is where most couples sit.

Gana - 1 of 6

Rakshasa · Manushya

These two ganas pull in opposite directions: one is forceful and self-willed, slow to concede, the other practical and mixed - accommodating up to a point. It shows most in an argument, where one wants to settle it and the other wants to win it.

Nadi - 0 of 8

Adi (Vata) · Adi (Vata)

The same nadi - classically Nadi dosha, the heaviest single item in Ashtakoot. It is read as two similar constitutions rather than complementary ones. Classical exemptions exist (same nakshatra with different padas, or the same sign with different nakshatras); neither applies here, so an astrologer's reading of the whole chart is the right next step rather than a rule.

Total 4.5 of 21 - Difficult.

Four of the eight kutas are shown, the four read from the nakshatra. Three more come from the Moon's sign and are not included; Varna is omitted because it is a caste classification.

10 Marriage Questions

ASTRO DR. MANDEEP C SAINI

1. Will they get married?

Both charts carry a marriage promise (Anika Verma: Conditional, Rohan Mehta: Strong), so union is supported. Promise is about possibility - timing decides when.

For your relationship: Keep the intention clear and aligned on both sides, and don't let outside pressure or over-thinking delay a willing match. A confirmed promise simply needs the right window to act.

Planetary basis: Anika Verma - 7th house holds Moon; Mars in H10 (Taurus); Jupiter in H1 (Leo) · Rohan Mehta - 7th house empty; Venus in H8 (Sagittarius); Jupiter in H2 (Gemini) R

2. When is the best time?

Their windows overlap around Feb 2027 - Aug 2027 - the most supported stretch to formalise things.

For your relationship: Plan the important steps - engagement, wedding, big joint decisions - inside the supported window, and avoid forcing them through a flat or testing phase.

Planetary basis: Anika Verma - Jupiter yatra H11 (Kama trine) · Rohan Mehta - Jupiter yatra H3 (Kama trine)

3. Will the marriage be happy?

Workable - good in parts; happiness grows with conscious effort in the weaker areas below.

For your relationship: Happiness here is built daily, not granted once. Protect quality time, keep appreciation flowing, and deliberately tend the lower-scoring dimensions above.

Planetary basis: Emotional 28% + Stability 56% Moon: Moon in H7 (Aquarius) vs Moon in H5 (Virgo); Jupiter: Jupiter in H1 (Leo) / Jupiter in H2 (Gemini) R

4. Any relationship strain to watch?

No strong strain pattern stands out; commitment and harmony are reasonably supported.

For your relationship: When strain shows, slow down: pause heated conversations, avoid major decisions in tense phases, and bring in calm, honest talk (or a neutral third party) early rather than late.

Planetary basis: 7th house - Anika Verma: Moon · Rohan Mehta: empty. Harmony 75% (MarsMoon, SaturnMoon)

5. Any risk of straying?

Attraction is high but the emotional bond is thinner - keep communication and emotional closeness alive to stay secure. (Behavioural, never fixed.)

For your relationship: Security is the real antidote. Keep emotional closeness alive, talk openly about each other's needs, and make each other feel genuinely chosen - temptation loses its grip in a well-fed bond.

Planetary basis: Venus: Venus in H1 (Leo) / Venus in H8 (Sagittarius); Rahu: Rahu in H5 (Sagittarius) R / Rahu in H9 (Capricorn) R

6. Children & family outlook?

Moderate - children are indicated but timing/health deserve care; treat as guidance, see a doctor for medical matters.

For your relationship: Approach family planning calmly and together. Lower stress, prioritise rest and health, and seek medical guidance early instead of worrying alone - this is a window for care, never a verdict.

Planetary basis: Jupiter (child karaka): Jupiter in H1 (Leo) / Jupiter in H2 (Gemini) R; Anika Verma - 5th house holds Rahu · Rohan Mehta - 5th house holds Moon

7. Why might they clash?

Clashes are minor here; the Mars-Moon contact is fairly smooth.

For your relationship: Name the Mars-Moon pattern out loud so it stops ambushing you. Agree a cool-down signal, and never tackle big topics when either of you is tired, hungry or angry.

Planetary basis: Anika Verma: Mars in H10 (Taurus); Moon in H7 (Aquarius) · Rohan Mehta: Mars in H8 (Sagittarius); Moon in H5 (Virgo)

8. Love or arranged - which suits?

Strong natural pull - a love-led path comes easily.

For your relationship: Whichever path you take, invest in truly knowing each other - shared values, steady effort and mutual respect matter far more than how you met.

Planetary basis: Attraction 69% (VenusMars) vs Stability 56% (Jupiter / Venus / Saturn)

9. Can compatibility improve?

Yes. The chart shows tendencies, not fate. Awareness, communication and small behavioural shifts (especially around the weakest area) lift real-world outcomes.

For your relationship: Pick the single weakest area above and work on it together for a season. Small, consistent change in one dimension lifts the whole relationship.

Planetary basis: Focus area: Emotional Bond at 28% - the lever with the most room to grow.

10. Should they proceed?

Workable - proceed thoughtfully, with eyes open on the weaker areas. A personal reading helps.

For your relationship: If you proceed, go in with eyes open and a simple plan for the weaker areas. For the nuance a tool can't fully give, seek personal consultation from an experienced astrologer.

Planetary basis: Overall 55/100 (Workable - with effort); promises Anika Verma Conditional / Rohan Mehta Strong

5-Year Relationship Outlook - Month by Month

ASTRO DR. MANDEEP C SAINI

How to read this: every month is mapped from both partners' yatra - where the planets have journeyed since birth. Venus and Jupiter reaching the marriage zone (the 7th house or its Kama trine 3-7-11) bring warm months; Mars, Saturn, Rahu and Ketu there bring testing or distant months. Each year opens with the background tone set by the slow planets, then lists all twelve months with a Good / Mixed / Take-care rating, the planetary reason, and any gentle warning. These are tendencies to plan around - not fixed fates.
